BRAND & DESIGN OBJECTIVE

VuDelight is being developed as a modern, premium, youthful Indian FMCG food brand. We need a scalable packaging architecture—not simply artwork placed on individual pouches. The master system should create strong shelf impact while allowing the three product categories to feel related but clearly differentiated.

CREATIVE SCOPE

- Category/competitor review and packaging positioning
- 2–3 distinct creative directions for the master system
- Front + back pouch design and product/fruit visualisation
- Logo integration, colour, typography and benefit hierarchy
- Clear SKU/category differentiation with a consistent master architecture
- 3D pouch mockups / presentation visuals

PRODUCTION / ARTWORK SCOPE

- Printer-ready CMYK artwork, bleed, safe area and dieline alignment
- Barcode/QR, FSSAI/legal information and mandatory-panel layout
- Editable source files + high-resolution final PDF/AI/EPS as applicable
- Print/finish recommendations and pre-press support, if available
- Future SKU adaptation framework and per-SKU artwork cost

PLEASE QUOTE

- A: 1 master SKU
- B: 3 SKUs
- C: 5 SKUs
- D: Complete 3-category packaging system + future SKU architecture

IN YOUR PROPOSAL PLEASE INCLUDE: Fee + GST/taxes • concepts • revision rounds • SKU count & additional-SKU rate • timeline • deliverables/file formats • source-file ownership • printer/pre-press support • compliance support • IP/ownership terms • payment terms • NDA availability • 3–5 relevant food/snack/dry-fruit/candy/pouch case studies.	IMPORTANT: Existing visuals are references only. We are open to substantial creative improvement, especially in logo integration, hierarchy, shelf impact and category/SKU differentiation.
